Abstract (max. 6 - 8 lines)

Concept and aims

(please describe briefly the challenges to be met, the aims and the concept, the target groups)

Challenges and objectives

Concept

Target groups

Implementation

(please describe how the project has been / is being implemented: what has been done, role of political decision makers and actors, who steers the process, short description of most important instruments used etc.)

Actions and methodology

Actors and their role

Instruments used

Finances

(How is the project financed? How much does it cost (overall / annual)? If there is cost sharing: percentage of different sources. Are new financial instruments used? Who decides on spending?)

Results and impacts

(please describe the major outcomes: To what extent have the objectives been met? Has there been evaluation? Do/did the results of the project / experience have effects on other projects in your city and/or on overall policies?)

Lessons learnt and transferability

(What hindrances had to be dealt with in implementing the project? As you see it, could the approach and / or instruments be transferred to other cities? What pre-requisites (e.g. legal, political) are essential for success? What would be your advice to other cities?)
